

GSM Dialler

The New GSM Dialler from CQR the GD-06, can be connected to any device (intruder/fire panel, freezer monitor, CCTV equipment, etc,) that is capable of applying or removing a negative signal from 1 of the 6 inputs. This will then cause the dialler to send a customised Text message to 1 or all of the 6 telephone numbers that are stored Customised Text messages can also be sent to the GSM Dialler to operate an output or the onboard relay.

Using the onboard Temperature gauge, messages can be sent to operate only when a set temperature has been reached

- Network Free (Choose own provider)
- Dual band 900/1800 MHz
- Text messages can be sent to 6 telephone numbers
- 6 x Inputs/Outputs
- Built-in temperature sensor
- 1 x Relay Output
- Text messages can be customised
- Outputs controlled by text messaging
